This year we feel there has been no master craftsmen as many of the materials and techniques were new to the boys. However we have selected out of the large group of craft workers, the following:

Good Craftsmen

One who works well with his tools and materials, who is considerate of the rights of others in the craft shop, who does his share in co-operative projects for the general camp, who helps maintain the order of the craft shop and, who in the end has several well made articles to show for his summer work:

Mac Hardwick
Calvin Wells
Bob Meyers
Charles Stokes
Dick Stokes
Hugh Edwards
Beverly Douglas
Rucker Ginn

One who works with enthusiasm, who has devoted much time to the crafts, who is learning to use his tools and materials and who shows that he is on the way to becoming a good craftsman:
